OVERALL

Over 4 years of experience in IT with a strong focus on data. I am passionate about turning data into actionable information and continuously learning new technologies, from Python to AI-powered tools.

My background in QA and delivery management gave me a solid foundation in ensuring accuracy, integrity, and performance.

Key Skills
- **Programming:** Python
- **Databases:** MySQL, ClickHouse, PostgreSQL, MongoDB, Snowflake, Data modeling
- **Data Orchestration & Transformation:** Apache Airflow, DBT
- **Business Intelligence:** Looker

WORK EXPERIENCE

Technical Delivery Manager
FlightHub (travel industry)
01/2025 – present   MONTREAL, QUEBEC, CANADA

Technical Scope: Postman, SQL, MongoDB, ClickHouse, Looker, LucidChart, Python, Trello, GrowthBook.
- Managing integration of new content sources and development of new features.
- Querying SQL and NO-SQL databases (MySQL, ClickHouse/MongoDB) to analyze patterns, troubleshoot processes, and support decision-making.
- Designing, optimizing, and maintaining visibility for the projects including data modelling, creating and improving SQL queries and dashboards in BI tools(Looker).
- Conducting A/B testing in GrowthBook to evaluate product concepts and validate data-driven insights.
- Creating and tracking watchdogs for the key projects KPIs.

Quality Assurance Analyst
FlightHub (travel industry)
07/2024 – 01/2025   MONTREAL, QUEBEC, CANADA

Technical Scope: Postman, MySQL, MongoDB, ClickHouse, Looker, Figma, Trello.
- Validated back- and front-end integrations of new content sources, ensuring accurate data exchange between systems.
- Conducted API testing with Postman to verify correctness of data flows.
- Performed extensive database testing in MySQL, ClickHouse, and MongoDB validate ETL results.
- Generated SQL reports for stakeholders to provide insight into data quality issues and system behavior.

Software QA Engineer
Optinet (internet provider)
03/2023 – 04/2024

Technical Scope: Postman, MySQL, QA Automation with Selenium + Java.
- Created and maintained a mind-map of the whole application for testing and onboarding purposes.
- Implemented and maintained an automated test framework to reduce regression testing time.
- Queried MySQL databases to verify backend processes, validate data.

WORK EXPERIENCE

Manual Software Tester
ASKO (insurance company)
03/2021 – 02/2023
Technical Scope: Windows, Android, iOS, Jira, Figma
- Developing and performing test cases to validate software functionality.
- Managing the defect process, ensuring that defects are documented, tracked, and reported.
- Producing various reports, such as Traceability Matrix, Test Execution and Summary Report and others.

PROJECTS

LinkedIn - Job Postings Data Pipeline
09/2025 – 11/2025
Data Engineering Project | Python, Airflow, dbt, PostgreSQL, AWS, Tableau
GitHub Repository: https://github.com/filmozolevskiy/job-etl-project
- Designing and implementing a modular ELT system to ingest job postings from 3rd-party APIs.
- Building **microservices** for data extraction, cleaning, normalization, and enrichment.
- Enriching data with AI tools (skills extraction, job summary, writing tailored cover letters)
- Developing **ranking logic** using configurable weights.
- Automating data **orchestration** with **Apache Airflow** and **DBT** transformations for staging and marts layers.
- Deploying to **DigitalOcean** for scalable processing (justapply.ca).
- Publishing **interactive dashboards in Tableau**.
- Implementing **logging, test coverage, and webhook notifications** for visibility and reliability.

EDUCATION

Software Testing Bootcamp
Nezam Academy
01/2021 – 11/2021

Bachelor of Arts
Bolashak Academy
2012 – 2016
Four-year Diploma in Language translation and interpretation

Civil Engineering AS Degree
International Academy of Business
2008 – 2011
Tree-year diploma in Civil Engineering

CERTIFICATES

100 Days of Code: The Complete Python Pro Bootcamp
Udemy
05/2025
A big comprehensive Python Course based on real projects.

ISTQB® Certified Tester
03/2024
Foundation Level 4.0

AI for IT specialists
02/2024
A course about the ways AI can be used in Software Testing and Development.
